## SKILLED HELPERS WELCOME !

### JOB DESCRIPTION | SOFTWARE DEVELOPER

At Anytime Invest, The role of the full-stack Software Developer (PHP) will be to work closely with the Anytime Invest Management to build new systems and improve the company's existing applications to add value to the client experience. Prior experience in building large scale applications, including mobile apps, is key.

#### Role & Responsibilities :-

- \* Technical design, implementation, deployment, and support.
- \* Performing development and unit testing, working closely with business heads.
- \* Contributing to all phases of the development lifecycle.
- \* Business requirement analysis, review and implementation.
- \* Writing code and designing new applications from scratch.
- \* Reviewing designs and performing code reviews and ensuring designs are in compliance with specifications.
- \* Developing high-volume, low-latency and bug-free applications.

#### Apply if:

- \* You are creative, energetic, enthusiastic and have an entrepreneurial mindset.
- \* You enjoy learning new things and challenging yourself.
- \* You are comfortable with ambiguity and change.
- \* You enjoy building applications from scratch.
- \* You love contributing ideas and are passionate about your work.
- \* You have the ability to design fantastic UX and are able to think in "layers".
- \* You dream of building applications that will be used by millions of users.

#### Do Not Apply if:

- \* You are less of a "builder" and more of a "maintainer" .
- \* You do not like working in teams or contributing ideas.
- \* You want a work from home assignment.

#### Desired Candidate Profile :-

- \* B.Tech./MCA in Computer Science or equivalent.
- \* High levels of proficiency in OOPS, CodeIgniter, Core PHP, MySQL, jQuery, Javascript, Apache & Ubuntu OS.
- \* Experience in working with CSS/HTML on complex projects.
- \* Working knowledge of Python 2/3.
- \* Demonstrable ability to build API's and cohesively & seamlessly bind platforms together.
- \* Past experience in developing systems for the Financial Services industry would be an added advantage.

#### Preferred Work Experience

- \* 1-3 years of experience designing and developing applications with high availability and reliability.

#### Salary :-

- \* As per industry standards, experience and expertise.
